GeoDataVision has extracted data from the CFPB Snapshot file as of May 1, 2024 released July 11, 2024, and compiled the above report based on mortgage originations that were correctly geo-coded and matched to an MSA or non-MSA in the database. In some cases, loans were not correctly geo-coded or tracts were entered as "NA" by the Reporter and therefore were omitted from the report. These disqualified records are statistically insignificant and do not materially affect the analysis.

GeoDataVision has classified as "minority" any loan records in which either the applicant or co-applicant was identified as minority (race codes 1-4) as well as any records in which race was white (race code 5) and ethnicity was indicated to be Hispanic or Latino (ethnicity code 1).
